MEMORANDUM FOR: Deputy Director (Support)

SUBJECT : Supplemental Allowances for COS, 25X1A [REDACTED]

25X1A 1. No authority exists for supplementing cost-of-living allowances and it would appear, from what we see, that there is no basis here for making this an operational payment. If there is justification, it is in the field of representation. This would be on the assumption that the applicable salary and allowances would be adequate only for single quarters and if, as stated in the DD/P's memorandum of January 11, the DD/P believes [REDACTED] presence is required for representational purposes, the additional cost of double quarters and related costs required for such representation could be approved as a representation allowance in a proper amount.

25X1A 25X1A 2. The [REDACTED] provide the Assistant Directors may grant representation allowances to accomplish and further the aims of the Agency under the standards of [REDACTED] This latter regulation requires accountings similar to those for regular quarters allowances. A waiver of accountings would require the Director's signature, whereas the allowances can be approved by the Deputy Director (Plans).
